

3DID works with Mattel Children's Foundation, Viper Club, and Make-a-Wish Foundation to help make another child's wish come true.

Wednesday May 24th

Make-a-Wish Foundation® helped make another boy's dream come true on Wednesday. They brought Jay, a 5 year old boy from the United Kingdom to Mattel's® Hot Wheels® headquarters in El Segundo, CA.

Jay, a cancer patient diagnosed with lymphoblastic leukemia, had one wish. His wish was to visit Mattel to see how Hot Wheels are designed and produced. He also wanted to see his favorite Hot Wheels car, the Dodge® Viper®. Because Jay had never seen a real Dodge Viper before, Mattel Children's Foundation asked Matt Lazich, President of 3DID if he could stop by and show him his.

Being a member of Viper Club, Matt thought he could do better and arranged for the gathering of 11 Dodge Vipers with Viper Club. Jay not only got to see his favorite car, he also got to ride in one as members gave him rides around the parking lot.

Matt Lazich and 3DID would like to thank the Viper Club, Mattel Children's Foundation, and Wake-Wish Foundation for allowing us to be apart of this great program, and make Jay's wish come true.
